ATTRACTIVE HOMES

What are you going to do this spring to make your homes more attractive? Set out street trees. You would not take \$10 apiece for them when grown. Don't wait for the city officials to compel you to put in a concrete walk. It will make your home more valuable and you would not have it taken out for many times its cost, if well built. Don't wait for the city marshal to ask you to move your wood pile out of the street. Do it now. If every property owner would take pride in keeping his premises looking neat and clean, we can make Mansfield an ideal little city. Put the wood pile in the back yard and clean up generally. We believe the city should offer a first and second prize of say \$10 and \$5 for the two best kept yards this summer.

Straight At It.

There is no use of our "beating around the bush." We might as well out with it first as last. We want you to try Chamberlain's Cough Remedy the next time you have a cough or cold. There is no reason so far as we can see why you should not do so. This preparation by its remarkable cures has gained a world-wide reputation, and people everywhere speak of it in the highest terms of praise. It is for sale by all dealers.—Adv.

LET'S HAVE THAT CARNIVAL

With the wonderful success of last year's carnival still fresh in the minds of the people, we believe the Mansfield people should at once take steps for the 1913 carnival.

Several have spoken to us relative to the matter and seem anxious for something to be doing along this line. We believe it should be made an annual affair so that the people could look forward to it, knowing that it would certainly be held. Why can't we hold a meeting and decide definitely whether or not Mansfield will hold her second annual fall carnival this year? We think the question should be determined one way or the other—and we would be pleased to have the decision in favor of the carnival.

Since the above was put in type, Oct. 2, 3, 4, 1913, were selected as the dates for Mansfield's Second Annual Carnival and Stock Show
